

PipeCut INOX 220

Stainless Steel

For Easier, Faster and more convenient pipe cutting

New Exact PipeCut INOX 220 is a portable and handy tool for stainless steel and acid-resistant pipe cutting. It is accurate, safe and fast like other EXACT machines and is equipped with a laser guide to show the precise cutting point.

INOX 220 is supplied with the new INOX 140 blade which provides outstanding performance and blade life of up to 100 cuts on 3mm stainless steel pipe. The gripper system is redesigned and features additional stainless wheels for preventing corrosion or markings on stainless steel pipe surfaces.

INOX 220 is a lightweight, portable solution for high demanding pipe cutting on site and it can easily cut pipes up to 12.5 mm wall thickness.

Everything is packed into one carry-on bag with rollers, blade and accessories.
